INSPIRE TRIP TO SILICON VALLEY

APRIL
12 - 16, 2026

Let's talk about AI. Experience the future. Experience innovation. Learning journey for owners and the C-Suite of family businesses.

Silicon Valley is and remains the world's leading innovation ecosystem.

Join us on our inspirational trip to experience tech companies such as Google, Open AI, and Anthropic, which live "AI first" and use it strategically to redefine innovation, efficiency, and customer experience. During the company visits you will gain insights into current developments in AI, automation, and digital business models.

Joining the trip will give you access to the INTES Inspire-Community with regular networking opportunities and a network of family business owners from this and prior tours.

Get inspired by the energy and innovation power of the Bay Area – and return home with expanded views and insights, new contacts and ideas. A journey lasting longer than the trip.
